Supranuclear Palsy

PSP

SUPPORT NATIONAL PSP AWARENESS WEEK HAVE TEA FOR PSP!

Where: When:

Progressive Supranuclear Palsy:

- Affects over 10,000 people in the UK.
- Is a terminal condition; life expectancy is on average 7 years from onset.
- It leaves those affected unable to walk, talk, swallow or see; yet the mind usually remains unaffected.

The PSP Association:

- Provides help and support for those living with PSP or CBD.
- Funds research into the cause, treatments and eventually a cure.
- Relies on voluntary support.
